

# HEWA MADDUMAGAMAGE SARASI BIMSARA RAJARATHNA

## Full-Stack Developer - Intern

+94 71 630 3309 — [rajarathnasarasi@gmail.com](mailto:rajarathnasarasi@gmail.com) — [LinkedIn](#) — [Medium](#) — [Behance](#) — [GitHub](#) — [Portfolio](#)

### Summary

I am an enthusiastic, hardworking, and ambitious undergraduate with a passion for the IT industry with strong communication and interpersonal skills. I am seeking an internship to learn new things in order to develop and further improve my skills and knowledge.

### Education

|                                                                                                                          |                |
|--------------------------------------------------------------------------------------------------------------------------|----------------|
| <b>Sabaragamuwa University of Sri Lanka</b><br><b>BSc (Hons) in Information Systems</b><br>3rd-year undergraduate        | 2024 – Present |
| <b>Swarnapali Balika National School Anuradhapura</b><br><b>Advanced Level</b><br>Physical Science stream with 3C passes | 2008 – 2022    |

### Certifications

|                                                                                                             |                                  |
|-------------------------------------------------------------------------------------------------------------|----------------------------------|
| • <b>MERN Dynamic Web Development Program – Institute of Digital Engineering Technology (IDET)</b>          | <a href="#">View Certificate</a> |
| • <b>Cloud Operations And AWS Practitioner Program – Institute of Digital Engineering Technology (IDET)</b> | <a href="#">View Certificate</a> |
| • <b>Artificial Intelligence &amp; Machine Learning Certification – SKYREK Institute</b>                    | <a href="#">View Certificate</a> |
| • <b>CertDirectory Credentials</b>                                                                          | <a href="#">View Credentials</a> |
| • <b>Front-End Web Development – University of Moratuwa (Open Learning Platform)</b>                        | <a href="#">View Certificate</a> |
| • <b>Web Design for Beginners – University of Moratuwa (Open Learning Platform)</b>                         | <a href="#">View Certificate</a> |

### Technical Skills

- **Programming Languages:** Java, JavaScript
  - **Back-End Technologies:** Express.js, Node.js, PHP
  - **Databases:** MySQL, MongoDB, PostgreSQL
  - **UI/UX:** Wireframing, Prototyping, User Flows, Responsive Design
- **Front-End Technologies:** React.js, Next.js
  - **Platforms:** GitHub, Supabase
  - **Tools:** Git, Postman, Figma

### Projects

#### Individual Projects

- **FixMyCity.lk - (Ongoing)**
  - A smart civic issue-reporting platform that connects citizens with relevant authorities to resolve public infrastructure problems.
  - Technologies used: MERN (React, Node.js, Express.js, MongoDB)
  - [GitHub Link](#)
- **Veloura Watches**
  - A full-stack e-commerce platform for premium watches, featuring product browsing, user authentication, shopping cart management, and a responsive interface built with the MERN stack.
  - Technologies used: MERN (React, Node.js, Express.js, MongoDB)
  - [GitHub Link](#)
- **CalculatorHub**
  - A responsive web-based calculator hub offering a collection of specialized calculators for finance, fitness, mathematics, statistics, and other everyday calculations.
  - Technologies used: HTML, CSS, JavaScript
  - [GitHub Link](#)

- **Vita-Derma**
  - A responsive skin clinic website designed to provide users with information about dermatology services, clinic details, locations, and contact options.
  - Technologies used: HTML, CSS, JavaScript
  -  [GitHub Link](#)

## Group Projects

- **GovCare.lk – Sri Lankan Government Hospital Appointment Booking System**
  - A platform designed to digitalize the appointment booking process in Sri Lankan government hospitals with frontend, backend, and database integration.
  - Technologies used: Next.js, Express.js, Node.js, PostgreSQL(Supabase), Tailwind CSS
  -  [GitHub Link](#)
- **AgroGuard-AI – AI-Powered Early Warning System for Crop Disease**
  - AI-powered crop disease early-warning system that analyzes crop images, weather conditions, and regional case data to detect diseases and assess outbreak risks featuring multilingual farmer advisories, officer verification, and regional outbreak alerts.
  - Technologies used: React.js, Express.js, Node.js, PostgreSQL(Supabase), Tailwind CSS, Gemini Vision AI
  -  [GitHub Link](#)
- **ORIXA – Futuristic Transportation Platform - Transportation 2100**
  - Designed and developed a futuristic transportation platform for Transportation 2100, integrating multiple transportation modes into a unified journey-planning experience. The platform enables users to search and plan journeys, explore optimized routes, track transportation, view interactive maps, and manage travel preferences.
  - Technologies used: React, Vite, and Tailwind CSS, focusing on a responsive, accessible, and intuitive user experience with modern futuristic UI/UX design.
  -  [GitHub Link](#)

## Extracurricular Activities

- |                                                                                                                 |      |
|-----------------------------------------------------------------------------------------------------------------|------|
| • <b>Begginer Tier - Runners Up</b> – CodeRally 7.0, IEEE Computer Society, Informatics Institute of Technology | 2026 |
| • <b>Finalists</b> – CodeArena'26, IET On Campus KDU                                                            | 2026 |
| • <b>Volunteer Content Writer</b> – Society Of Computer Science, Sabaragamuwa University of Sri Lanka           | 2025 |
| • <b>Volunteer Contribution</b> – SDG Task Force Project, Rotaract Club of Sabaragamuwa University of Sri Lanka | 2025 |
| • <b>Secretary Team Member</b> – PearlHack V3.0, WIE, Sabaragamuwa University of Sri Lanka                      | 2024 |

## Soft Skills

- |              |                        |                     |
|--------------|------------------------|---------------------|
| • Teamwork   | • Communication Skills | • Adaptability      |
| • Leadership | • Flexibility          | • Critical Thinking |
